Questions & Answers 1

Question 1

The instructions for section 3 of the budget form state: "Do not include costs associated with the WorkSource site landlords," such as per seat costs. I understand that "seat costs" for WIA partners at WorkSource sites should not be included. However, there are seat costs associated with Operator staff. Are they to be included in this section?

Answer

No. All seat costs, including those for Operator staff, will be addressed through a separate process.
